Palmistry - Palm Readings In Your Own Words (Speed Learning) (Volume 4)

Synopsis

"One of the best, most practical guides for learning this ancient divination technique that's ever hit the market. THIS BOOK IS A MUST!" - Craig Browning
In his new book, 'Speed Learning ~ Palm Readings In Your Own Words', Julian Moore teaches the basics of palmistry using proven techniques which mean that you could be reading palms in less than 48 hours! This ebook and ten accompanying FLASH CARDS can get you up to speed quicker than you ever thought imaginable, while still creating your own style and being true to yourself without having to pretend that you're a great showman or anything other than yourself. 'Speed Learning ~ Palm Readings In Your Own Words' shows you how to give REAL readings that CONNECT with people. Most people who decide to learn palmistry are easily put off when they first pick up a palmistry book, there's so much information and more often than not, no clear description of even what ORDER to read the different elements of the hand in. This is not like those other books. It teaches you a step-by-step way of reading people's palms that's almost impossible to forget, and as it encourages you to create YOUR OWN way of describing what the lines and fingers mean, the speed of learning is greatly increased. You're not just learning 'parrot style', you're creating your OWN versions of how to talk about the meanings of the hand, which makes them entirely memorable!

REVIEWS
"No hype...just plain good! You can't go wrong if you just DO what Julian describes. I've always shied away from palmistry because I thought the system was too complicated. Julian has changed all that. And, the memory cues are an added bonus. It just can't get any easier." - Nicholas
"After reading Julian's book, and going through the flash cards a couple of times, I have a practical knowledge of palm reading that I didn't have 48 hours ago. My progress is clear and tangible. Today, I was able to improvise a palm reading session with one of my regular clients, and it went very well. I'm excited! That's why I'm writing this review, hoping that some of you also take advantage of this beautiful tool that Julian is sharing with us." - Enrique Enriquez - member of Kenton Knepper's S.E.C.R.E.T. school and co-author of the groundbreaking book 'Mind Reading'
"A very useful tool for both learning and reviewing palmistry basics. For learning you have taken the concept of flash cards and made the cue cards much more of a memory exercise; thereby, challenging the mind to create rather than just repeat. For the pro you have given some interesting slants on certain traits that add further dimension and depth to a reading. The cards provide an excellent review tool for all practicing palmists as it allows them to review traits and characteristics that may not appear commonly in their practice." - Charles Green & Eugene Bourgal
"An excellently laid out summation of the essence of palmistry, designed to teach you as you go along. I can certainly see how one can get this today and start giving mini-readings tomorrow night. Better yet, learn it all easily in a week and give real

readings and be able to answer questions. This book actually teaches easily, speedily the essence of palmistry. Nice job. I'd recommend this to anyone starting out in the field. Well worth the money."

Julian Moore is a composer, songwriter, music producer, author and mentalist. Interested in all things strange from an early age, his writing took a back seat to his musical endeavors until fairly

recently, when he embarked on a writing spree revolving around the practice of giving 'readings' - palmistry, graphology, cartomancy and the pseudo-sciences behind them such as 'cold reading'. Julian is now embarking on a series of novels which should be available in the not too distant future. One involves an adventure with some dogs in a region of India. Another surrounds the haunting of a student pianist. There could be some others that deal with a little girl and her friends who discover some strange abilities. Who knows. In the meantime you can read his current crop of factual books available here and from The Cold Reading Company, or check out his band Georgia Wonder at their website or on YouTube.

Very, very, very, useful and helpful. A real money earner buy this now. However for some one who has never done palm readings or any other types of reading before, it is lacking telling a novice to just use their own words if they never experience doing it because without a working knowledge of learning and or doing cold readings, a novice would not know properly how to really please a client. So one may watch reading done on the internet, pay money to have a short palm reading, read up on how others are doing it, this will give you a stepping stone to become successful

Palmistry takes a bit of work. When you start out there is so much you need to know just to get started. Julian has taken all the work out of that work. With his emphasis on memory systems you find the learning becomes effortless. Potentially you could be out reading palms within a few hours of purchasing this product, with is the best endorsement I could give it. And the information is not just bare bones basic - there is enough detail to provide a good quality reading, based on the genuine oracle of palmistry, not on some simplified, gimmicked version. Julian's books have revolutionized the learning of reading systems, and this was my favorite. I have kindle on my phone, so that when I get to a gig I can have a quick look at the flash cards for a speedy refresher before I begin. This book will be of great use to magicians and entertainers, as well as those interested in getting into the business of doing genuine readings. Highly recommended. The absolute best way to start.

This is a great beginner's guide for anyone who wants to do palm readings. While it does not go in depth to all the lines what it gives you instead is how to give readings. There are exercises at the end of each chapter for you to practice. You are taught how to interpret the meaning of the lines in your own words. That is one important part that seems to be missing from most palmistry books. Flash cards are also provided to help you learn the material faster. There are a total of ten cards. If you only just learn three of them it's plenty to give a reading. That is what I like about this book. You

learn a basic understanding on how to read palms and give a reading in your own words as opposed to memorized stock lines. If you want to learn how to read palms then this book is a good start. You can't go wrong for the price either.

I have been thinking about learning palm reading for awhile and every time I did a search it brought me to this book. I finally decided it was time to take the leap; and ordered the hard copy and am on my way to learning step by step an excellent method to do just that. The book is well laid out with lessons/chapters that guide you thru the process of giving a good reading "in your own words". Included is a link for a downloadable audiobook that assists and some flash cards. I look forward to many hours enjoying this tome and reading the memory tips and practice lessons.

This is the best way to learn the basics of useful palmistry I've found but the accompanying (downloadable) flashcards are key. It isn't a reference book so much as an instructional one. It's very basic and doesn't cover the astrology portion of it. The book and cards do give you all you need for a good starting point in palm reading. It was actually really fun to learn and ultimately use.

I enjoyed Julian Moore's presentation style. He touches on all the important basics of Palm Reading in an easy to follow format. If you are interested in learning to read palms, Julian's book is a must. He has excellent tips, illustrations, exercises, and talks about not only the mechanics but developing your own presentation style, along with other learning tools. He points out the most important areas first so you can jump in and get started while following along with the rest of the book. If you are interested in Palm Reading, I highly recommend his book! I plan to check out Julian's other books.

I started my interest in tarot card reading but after reading Julian's book on Palm Reading he got me hooked and love reading palms. His style is quick and entertaining and people love it. This book is very highly recommended!

Got this for my daughter for Christmas. She was super excited to get the book. We flipped through it, and we knew we had to download the flashcards. I have not seen the flashcards- my daughter took over, but I have to assume there are some pictures. Even though the book clearly states that there are flashcards, I guess I still expected a few visuals in the book.
