This story was a rare combination of sci-fi; humor & heat.... a winning combo in my book. It was a good length & it introduced/ developed several other characters which I assume will eventually get their own story. Tink was a feisty out-of-the-normal girl who was looking for love & found it... in outer space. The H was a typical Alpha male who was driven by Tink's unique character & friendliness. I liked the bonding marks; the after bonding ability to mental "talk" to each other & the eventual heat. I

only wish the heat had started soon, maybe @ 40-50% of the book rather than @ 60%. But I must admit, when the heat began.... it was worth the effort. If you like some spice w/your sci-fi & a book you can truly sink your teeth into..... I would highly recommend TINK'S NEVERLAND.

Tink's Neverland (Cosmo's Gateway Book 1) S E Smith
Jasmine
"Tinker" Bell lived up to her name in spades. She could Tinker with the best of them making her one dynamite mechanic. She was a Sprite and Spitfire all rolled into one. She kept herself in tip-top shape. And she could get herself in trouble..just like her namesake fairy Tinkerbell! But there the similarities ended. Tinker was all woman, she loves playing instruments and boy could she sing! Just ask her groupies and bandmates! Tinker and Cosmo were friends. More like siblings, they fought like cats and dogs. They also had each other's back. Cosmo is this wealthy Nerd Geek, had his doctorate at 22. who could think up any type of project. and BAM it was done! Tink and Cosmo took care of each other she helped keep his projects running with her multiple skills he gave her a place to live inside his fortress. sympatico! But Tink was nosy..just like all fairies faced with a strange glowing doorway and seeing a fight on the other side. Hey that dude was in big trouble. Wait..hes just a kid! Well here the adventure REALLY begins! SE Smith has dreamed up this huge universe just waiting to be Discovered and Explored! Oh and who is that hunk standing next to the railing.....So pull up a comfy chair, get yourself a drink, and sit down to Explore this Universe just the other side of Cosmo's Gateway!!!!!!!!!!!!!!

Thoroughly enjoyable book. Seems to be an interesting mix of sci-fi/ paranormal romance/good old USA living each day to the max. Wonderful characters, the main characters being Tink and J'Kar, the crew of a spaceship, Tink's wild and crazy family, and her best friend Cosmos. The author, S.E. Smith did a wonderful job getting the reader hooked during the first Chapter, and so addictive I couldn't put it down. One small problems...I noticed that from Chapter 11-14 either Kindle made a mistake printing the ebook or the editor messed up; in these chapters, the last sentence on each page was either doubling words, or some words were missing. No matter, I loved reading this book and would strongly recommend it to others.

I LOVED THIS BOOK!!!! I want to say this is the first science fiction book I have read but I can't be sure but anyways I loved it. J'kar totally hot alpha male from another planet. Jasmine "Tinker" Bell

sexy, sassy beautiful earth woman. They meet when Tink's best friend Cosmos creates a gateway and it transports her to another world literally. Action, suspense, drama, hot yummy loving, laugh out loud moments boy did I laugh. I loved how Tink just went with the flow and while she finds out that yes there is life beyond the stars she see this as an adventure of a lifetime. She had such an open mind, she is a free spirit with a heart of gold. I have read this book several times and I have yet to get tired of it. I am trying to catch up on my reviews and when I find myself reading this book I'll tell myself to write a review but I go straight to Hannah's Warrior. Cosmos's Gateway series are wonderfully awesome reads that do not disappoint and leave you with a smile on your face.

Though the book has a lot in common with the Dragon Lords of Valdier series (minus the shifting) there are enough differences between the two to make this an entertaining read. Tink reminds me a lot of a toned down Cara (Capturing Cara). The interesting twist in this series has to do with male / female relations on Baade and how Tink's non-conventional upbringing affects the Prime males she meets. The characters are nicely fleshed, giving us a great cast of characters to enjoy. I cannot wait to read the rest of the books in this series.

I'm recommending that you get this book and series for your own personal enjoyment and you will find yourself reading these books over and over again, this I promise you!!! In fact, you will find yourself curled up in your favorite chair reading about the people of this world and never wanting this series to end and when you do get to the last book of this series, you will be waiting for the next installment with bated breath!!! Believe me when I say that you are going to love reading this series, because I have read more than 40,000 books in my life and I know a great story when I read one and this series is one of the absolute best!!!! I've read this book before but didn't write a review on it. I love Tink & J'Kar's story as it is filled with fast-paced action, lots of sex scenes & sexy Aliens. Tink & J'Kar meet after Tink saves his youngest brother from being killed; when she grabs J'Kar's hand because she was so shocked at the scene before her (just imagine being on the bridge of a Star Trek ship & seeing the big window/screen). When their hands touch it sets off a shocked feeling & the mating tattoo shows up on each other's hand & while Tink thinks nothing of it J'Kar realizes that he's found his bonded mate (aka wife). Just before he reaches for her Cosmos comes for her through the portal & takes her home. That of course sets off the chain reaction for J'Kar to find any means necessary to get her back. I don't like to spoil the book for you so, you will have to read it yourself. I'm now off to read the next book in this

series.
