Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

Keys of songs are modulated for the most efficient page space usage, but it's hard to beat the amount of songs you can play along with for the price. The only real downside is the terrible, cheapest binding. I would easily pay \$10 more for reasonable binding. Instead, every time I purchase some kind of songbook compendium (most especially these giant Hal Leonard tomes), I

immediately take it to my local FedEx print store and have them cut and rebind it into two or three separate books, each ringbound(so they can open flat) with plastic sheet covers.It's well worth it. The difference being a book you will continue to use and one you leave on the shelf because the binding is all screwed up.There are many different decades/genres of songs and different years of volumes. The overlap, if you glance over what's in each book, can be mitigated exponentially. A good practice tool at the least.

Lots of songs, which is great, but this book is BIG! Needs a better binder or way to hold it open as it's heavy and thick. Also it seems the print (music) is a smaller print, hard for me to read.

Hal Leonard keeps a lot of the same songs repeated from one issue to the next. I'd love to get more modern/contemporary pieces in a new collection.

My son loves this book and the road that Jazz Piano is taking him down. Great collection of music.

Wonderful selection of songs which are nicely composed .

Too much overlapping with other books form the author. I was expecting more recent material

Did the trick

great
