Not worth it. With the recent changes from the Jan 2016 PMP exam update, you really need to know the ITTO's which are incomplete on this pamphlet. Also, the focus of the exam has recently changed on specific processes that aren't covered in depth on this guide. Make your own flash cards.

Amazing quick guide!! Content is very well organized and laid out for easy reading. Colors give the guide an extra element. I am very pleased with this PMP preparation sheet - keeps the main points organized and helps aid in studying, especially if you want a quick glance for running through your thoughts!

While using the study guid and flip cards this reference guide is a must have to those studying for the exam. Easy to find information at your fingertips.

The quick reference is very detailed with all the information I need to prepare for the exam.

A great refresher. I earned the PMP a decade ago and stopped earning the CEU's several years after that (too expensive). I recently headed for a job interview that very specifically required the PMP. I bought this as a review aid to be sure I had the terms / concepts down, in case I was asked. Did its job. And so did I!

I loved this tool!! I passed my PMP exam today using this, How To Pass The PMP on Your First Try and the PMBOK 5th edition, studying consistently for 3 months. To use this alone and think you will win going into the exam is silly thinking. You have to read, learn and understand the processes, flows, ITTO's and use these additional tools to simplify and condense your learning. Do the work!

Very helpful summary of the material in the official PMBOK guide. I bought this a few days before I took the PMP exam, and I think it helped me get at least a few questions right (I passed). In hindsight, this would have been useful to have when I started studying.

Note: I have not taken the PMP exam yet. Still in preparation mode.I bought this and looked at it after taking a 5 day PMP bootcamp class.Pro: has most of the key points discussed in the bootcamp course.con: overpriced at $16. Since the test does not allow you to bring anything in with you, this is only a study reference. Print is quite small so just want to let you know in case you need reading glasses
