I really enjoyed this short play- there's so much packed into so little. Keep in mind this was a text taught to my students, so I'm definitely reviewing it from the perspective of an English

teacher:Positives:- Themes aplenty- race, father figures, intellect, age, art...- And the symbolism- kites, ballroom dancing, comic books...- Characters- so well-developed for a play that spans the course of just one afternoon- The dialogue is so rich and powerful- the climax of the play is incredibly moving and insanely well-written- Much can be done with historical and social contextDefinitely a good read- would be a great airplane read- short, but deep (unless you're sitting next to a noisy child or a loud snorer).

great play written brilliantly. Very important terms of the current socioeconomic situation in the world. It's a great tool for educational use. The play is easy to read but is very profound and complex at the same time.

I got this play for my Theater class. I loved it, it focuses on a scene of a young white boy and his black friends/servants. It takes place in South Africa 1950. Theme being racism, it shows a key example of how quickly one can turn. This was an excellent play, empathizing with either 1 or all 3 of the characters. It's short and a great read, I highly suggest this book.

so happy my professor had us read this I loved it

Just the item I needed. Fast shipping. No problems...

Very good quality of book for a paperback. Clean and no torn or creased pages
