Customer Reviews

Book by Bingham, Mindy

I purchased this for my son to have at home as the school issued one is not to leave the class. It was exactly what I was looking for, was very helpful in completely the assigned on-line work, and the program is something I wish was around when I was in high school.

This is a great book for teens to get them started looking at their future. What's great is that even their parents find the exercises interesting and often do them themselves!

Great for my senior applied English classes

I found this book in one of my child's classrooms at Back to School night. I opened it up and flipped through it and thought--wow--I wish I had this when I was growing up! The questions are very precise and are geared toward helping a person understand what type of individual they are, and what type of environment they feel comfortable in so they can figure out what kind of job will make them happy in life. The book also teaches how to go about securing a future for oneself that fits in with who they are. I ordered this book asap because it is an extremely helpful tool and easy to read.

This book should be well received by teens and young adults who need to reflect upon their career path (s).

Very helpful for working with young girls to develop life skills

I bought this as a gift, it seemed to have a lot of important questions and ideas in it.

son not ready for it yryet
