# Dance Composition: A Practical Guide To Creative Success In Dance Making (Performance Books)

## Synopsis

Dance composition is the discipline that translates ideas into dances and is an important part of dance education. This book, a bestseller for over twenty years, is a practical guide to creative success in dance making and is a popular textbook for all those who are interested in dance composition, from secondary school to university. This new edition includes a DVD with video taken from Choreographic Outcomes, a groundbreaking advanced technology resource pack aimed at comprehensively improving students' choreography. The book has been revised, redesigned and expanded. Reference to the DVD examples are made throughout the book and new assignments based on the video material are included.

## Customer Reviews

"After 20 years as a bestseller, the very hands-on DANCE COMPOSITION...has acquired an accompanying DVD, which provides examples of composition and performance which relate to new practical assignments detailed in the book...Has also been revised, designed and expanded...Pretty indispensable reading for dance students and teachers.

The Stage "A book which has remained seminal in its field as one of the key texts in dance education. Jacqueline Smith-Autard delves into the creative arena of dance with a logic unmatched by any other creative author in this field.

Speech and Drama "Jacqueline Smith-Autard has made significant contributions to the development of dance in education.

National Dance Teachers Association

Jacqueline Smith-Autard is acknowledged as a world-leading exponent in dance education. She has taught dance in schools and universities and was chief examiner for dance certification exams for a decade. She was a founder member of the National Dance Teachers Association, is a trainer of teachers in dance education and a pioneer in the use of technology to extend and enhance dance pedagogy.

A gift.

Great little book with great insight!

Good info

Book did not come with the dvd. I had to mail it back.

Excellent book. Indispensable reading and reflection.

I really despise this book. I feel like the author has an incredibly elitist attitude and the book was monotonous. The accompanying DVD was useless product promotion. In addition it all feels a bit outdated to me (the references to technology certainly are of course). There are better books out there now on this topic, IMO.
