Pick Me

Synopsis

Josh blinked. He could still kiss her. Then he'd know if he was crazy to think it at all. If it flopped, they could laugh it off. "Well, I guess I" she began. She reached for the knob. "Wait." She tilted her head up, and he inhaled, his nerve wavering, then stepping closer, dipped his head and pressed his lips to hers. "Goodnight," he said softly. "I'll call you."-----Joshua Dixon didn't think spending a few days with Mia Girard would become so important. After all, no girl had ever wanted to be with him before. Kissing her, late one night, changes that. Suddenly, their budding friendship holds promise of so much more. At least, it did until their mutual misunderstanding threatens to tear them apart. A sweet short story of teen romance by best-selling author, SUZANNE D. WILLIAMS. 14,000 words. Clean Romance.

Customer Reviews

This story feels like perfection. It felt completely natural and yet predestined. If we dare to truly open

our eyes, can you imagine the treasures that we would find that are right in front of us every day? Our world would be a much better place if only we would learn to follow our heart and not what we are told to chase after. Our heart will lead us to where we are supposed to be.

Don't waste your time running after something that isn't made for you. Instead, look around and rethink your entire mindset. You will be so much happier for it. Josh thought he was doing what he was supposed to be doing by following the example of those around him. Just when he thought he was worthless in walks Mia who shows him exactly who and what he is. She does so in a very quiet yet powerful way that will forever change them both. Not only is Josh changed by the kindness and honesty that Mia offers him, but Mia finds herself changing in how she thinks about herself as well as how she sees herself. Watching them is like watching a flower transition from a new seed to a stunning bloom. It's a slow yet deliberate transformation that changes the entire nature of the flower itself. When what is meant to be finally comes into focus, it brings with it contagiousness that is felt by all that come in contact with it. I really loved watching Josh and Mia as they got to know each other better as well as themselves. They learned a lot about themselves that they didn't already know, and some of it came as a surprise to even them. The problems that they faced and the emotions that they went through felt real. Nothing was forced or brought to light sooner than would normally happen. Granted that this is a short story, but the progression would have been no different if it was in a book twice as long. The simple beauty of this story is how life gave them the biggest and best surprise then even they were hoping for. All they had to do was open their heart to each other and let the love that was naturally being nurtured grow into something incredibly beautiful and uniquely precious. This is the first book that I have read by Suzanne D. Williams, and I am totally hooked on her writing style. She has an incredible talent to touch the heart and leave a lasting impression. There is humor, drama, and hope within the pages of this story which will pull you in and not let go. It is a breathtaking journey that will leave you with a lot to think about. Life is short, so don't waste it on wanting and dreaming. Live life as if it is a precious gift that is refundable and priceless.

When Joshua (Josh) Dixon leaves the restaurant he was sitting in feeling depressed, he finds Mia Girard needing a ride home in the rain as her car has a flat. Helping a classmate turns into flirting which soon turns into a mutual liking. After hanging out with Mia, he doesn't for 3 days. Once he does call, she's out of the house. When Josh steps outside to the mall, he sees Mia with Scott. Now with each of them thinking their somewhat-friendship-growing-into-a-relationship is failing, will they rekindle what they had? Mia & Josh were adorable. The flirting was amazingly cute and their

chemistry was equally great. I loved them together. It was a short story, but it was just right. Suzanne wrote another quick story that makes you laugh and happy in the end.

Joshua Dixon has a huge zit on his face, there are six guys around the girl he fancies and he feels like his life is hopeless. Outside he meets Mia Girard who has a flat tire. Mia runs with a different group in school with friends in band or college prep. She is smart and not prepared to have sex outside of marriage. Read this enjoyable, short story to see how their friendship/relationship develops. The only thing I didn't like was the very predictable misunderstanding between the two of them meaning that they did not talk to each other for weeks. This scenario gets SO old. BUT this story is clean and very clearly shows that teenagers can be friends and have fun together without falling into bed. Great book for teenagers! Maybe by reading the 'predictable misunderstanding' it will help them NOT to make the same mistakes in their own friendships/relationships.

Tender story about normal teenagers - complete with acne and dipping self-esteem - who discover that they're worth being loved. I enjoyed this fast read. I loved that there was no sex, swearing or drinking. I loved the relationships the teens had with their parents. I especially loved that the hero and heroine were attracted to the good things about each other, not just their appearances.

Nothing dramatic or crazy but just a sweet loving story. It kind of reminds you of your days in high school. A very short book but well worth the read, you will not be disappointed.

Good read

Pick Me is a cute short story for young adults. I liked the characters and because it's well-written, it's so easy to take in and enjoy, like a bite of dessert that leaves you wanting more of her stories. I can't wait for the next one!
