it actually has so many errors and pisses me off. who made this..... they have such a stupid mistakes and the answers arent well-explained.

This book has so many errors that my son lost confidence in it. A person without strong math skills would be undermined and confused by these errors. I would not buy this book unless corrections are posted online. As of now, I cannot find errata anywhere on the internet.

My 7th grade son found an error on problem 10 after about 30 minutes. Who edited this thing anyway?
