Extreme Science (Trailblazers)

Synopsis

Extreme Science describes the very limits of science. It answers many big questions: such as How did the universe begin? How will it end? Will we ever visit the stars? Could we bring dinosaurs back to life? Can we travel back in time? Could we live forever? All great questions, often with some surprising answers! The fiction story 'The Man in the Machine' tells a great story of universes living inside computers. It really gives you something to think about if you like computer games! The Trailblazers series has been written for older children and young adults with a reading age of 5-8. The books are suitable for general reading or as part of a more structured reading program. Each book is on a strong, popular topic, with a colorful, attractive layout. Each book has a non-fiction and a fiction section. The fiction story appears in two formats - one with simple texts for poor readers; the facing pages contain an illustrated "speech bubble" version of the same story, for those who are just starting to learn to read. These two levels of entry give access points for children and young adults with different reading ages. The vocabulary of each book is carefully limited, with simple sentences to reinforce reading skills, which make the books suitable for even the poorest readers.

Book Information

Series: Trailblazers

Paperback: 36 pages

Publisher: Ransom Publishing (February 28, 2008)

Language: English

ISBN-10: 1841676489

ISBN-13: 978-1841676487

Product Dimensions: 6.3 x 0.1 x 8.2 inches

Shipping Weight: 4.2 ounces (View shipping rates and policies)
