## **Customer Reviews**

I have used these Runes and the accompanying book by Ralph Blum for years, both included in the set along with a pouch to hold the stones. The book is easy to understand and use, and I have used it for guidance many, many times. The Runes speak to me and I feel connected to them. This set is a good place to start so I recently made this purchase for my daughter. While I am now branching out to other books so that I can deepen my understanding of the Runes, I always go back to this one.

This is my first set of rune tiles, as I've just become curious about it all. You will definitely need a book or some type of instructive guide to understand the background and the interpretation of your "throw" of the tiles. I think this book is an excellent guide....clear, concise and interesting. That you receive the book and a set of tiles with a drawstring storage bag all in one, is a good buy for the price. The tiles are good size and clearly marked. They are made from a faux stone material. The material has a chalky feel to me, that I find unpleasant, but not so much that I can't enjoy the experience of working with the runes.

Sadly, I lost my original Book of Runes (by Ralph H. Blum) and set of runes in a move a year or so ago. I had to order the new set and am very pleased with the quick delivery by , the cost, and the set itself. The runes come in the same type of grey bag, and the 25th anniversary edition is as good as the original. I enjoy using my runes on a weekly basis just for insight as a form of self-exploration, or if I am confronted with a situation. My only gripe is that I lost the original book and set of runes; however, there is a reason for everything.

Ralph H. Blum did a fantastic job capturing the essence of the runes! This is a beautiful set - a great gift - and a sage resource! I have purchased so many of this edition over the years because I end up giving mine away as gifts to friends, family or colleagues who try mine and fall in love with them! I love consulting these runes. I have enjoyed the reservoirs of wisdom Blum has expressed through each rune!

This has the tiles a little rougher than my previous ones, but just as helpful, whether you want to choose one for a general outlook or a full reading.

Always my favorite. Have purchased this set many times after I wore out the others. Highly Recommend for straightforward, no BullSh\*t in this volume. Highly recommend.

Excellent edition. Had a rune set many moons ago. This is the same set and book that I remember.

Very well done, a treasure chest of information, never lets you down
