Time Shifters: Into The Past (Volume 1)

Synopsis

Time-shifted to the past, three twenty-first century children fight to survive or risk being lost in time forever. When Maisie Brown is time-shifted to 1471 during a school trip to Warwick Castle, it's the beginning of an adventure bigger than she could ever have dreamed of. The only problem is she has to share it with Lizzie Andrews, the class bully, instead of her best friend Danny Romano, who has managed to get caught up amongst the Earl of Warwick's army marching towards the Battle of Barnet. Determined to save Danny, Maisie and Lizzie leave the safety of the castle and follow after the army. Battling against everything that Medieval England throws at them, the girls find unexpected help from a Lord with a surprising secret, and discover that two mysterious hooded riders are trying to hunt them down. With time fast running out to find Danny they begin to realise that they have the unlikeliest of allies looking out for them. The chase is on to find a way home before being time-shifted again.

It was really an amazing adventure, even though I didn't know any of the places, the descriptions were so vivid it was as if I was part of the scenery. It was as if I was there like one of the heroines. Even the smells felt so real. Kate Frost explains travelling through time convincingly and in the end I believed that it was all possible. Closing the book I had a smile on my face.https://smile.com/Time-Shifters-Into-Kate-Frost-ebook/dp/B01LXF9GAC/ref=sr_1_sc_1?ie=UTF8&qid=1477338643&sr=8-1-spell&keywords=kater+frost+time+shifters

I thoroughly enjoyed this story, but as all time travel books, this was confusing at times. For the most part, it was clear, but not always. There were times I had to go back and reread a passage. I will look forward to reading the next book in the series, though.

This book is amazing. I love how this book was written and it was very entertaining. Love it!! One of the best books I've read.

I was given a free copy to to to read and evaluate. Great characters, well developed. As near as I could tell the research of the eras was spot on! I am very much older than 9, and enjoyed the book immensely. I will reccomend this book to my grandchildren.
