This is a terrific aid for my tutee whose English written skills are limited. As an ESL student, he solely spoke his native language and his ESL teachers and aides also spoke Spanish. As a result, my tutee's English writing skills are limited by vocabulary and critical thinking skills. This book will assist him in clarifying the role of essays, one of the topics he will need to cover upon entrance into high school. In this book, the author asks the student to think first. Ah, what a novel idea; or perhaps an essaying idea. He, he, he. This book will certainly help student think through the essay writing process that will result in clear thinking translated into crystallized essays that their teachers and adults will fully comprehend. Purchase this book to help any prospective high school student succeed in English composition classes.

I used *Essay writing for High School Students* to brush up on my writing after years of neglect, and

with great results, but only "Mastering A, An, The, The - English Articles Solved" helped me truly understand the proper use of the articles a an and the. I would never have figured out how to eliminate all of those article mistakes without it!)

Excellent...the product and delivery met my expectations!

This book original price is \$14. But people sell it here from \$25.84 to \$98.99 for used and \$115.95 for a new one. I bought this book from www..com, but different seller.

Welcome to the world of critical thinking and writing. With this accessible text, Terego provides a step-by-step guide for organizing the thinking process, developing ideas, and creating the writer's voice. Detailed explanations and examples illustrate a logical approach to writing the essay. Not only does this book supply graphic organizers that clarify the thinking process, but also it offers student-produced examples that showcase the products from this methodical approach. Both students and teachers of writing will benefit from this practical, stimulating information.

I've used a lot of writing products for our children, and for high school, this seems to work very well, especially to get them to THINK about their writing, ORGANIZE (he is big on the 5 paragraph essay) and churn it out in a timely manner. Excellent practice for the SAT 25 minute essay. To help the teacher, he has a list of over 150 essay topics in the back of the book; something for almost everyone, even the most reluctant freshman writer (though I would use this more toward the year before your student takes the SAT--probably sophomore and work on basic writing skills freshman year). Better than most I've seen or used; not really a remedial handbook though, he assumes you can write an essay, he is helping you to write a very good one.

This book sets out the logical path to a successful essay. The examples are engaging and thought-provoking and make you itch to start writing! Mr Terego speaks directly to the reader, as if he were sitting across the desk, and his tone is full of encouragement. By the end of this highly readable book a student will have the knowledge to write a good essay and, more importantly, the confidence to do it well.

I found this book very helpful. Some books like this are too long and involved; this one is concise

and easy to understand. It has a good explanation of how to write an essay, plus specific tips about SAT, ACT and college admissions essays. It also has suggestions for discovering a point of view to make your essay convincing, and practical tips about grammar.
