Treating Pressure Ulcers And Chronic Wounds

Course # 34571

Treating Pressure Ulcers and Chronic Wounds

Maryam Mamou, BSN, RN, CRRN, CWOCN
Course Expires July 31, 2018

Synopsis

The purpose of this course is to provide nurses with information about the process of wound healing and interventions that may advance or hinder it in order to support the use of evidence-based practice and improve patient health. In addition, members of the public may use this course to enhance their personal knowledge of the subject matter presented. Upon completion of this course, you should be able to:

1. Describe pressure ulcers and how they develop.
2. Accurately identify pressure ulcer stages.
3. List key points of patient history and physical examination, and describe how the different body systems impact pressure ulcer development and healing.
4. Perform a comprehensive wound assessment.
5. Discuss the stages of wound healing.
6. Describe the different approaches to wound debridement and cleansing.
7. List the different types of dressing materials available for wound care.
8. Outline the necessary components of evaluating and monitoring wound healing.

This 5-hour continuing education course is available for download for professional development; if continuing education credit is desired, please see instructions included in eBook.

Customer Reviews

I work for a hemodialysis center and I am using this book for my continuing education. Very educational and will enhance my duty.

Content reinforces old and provides new material.

I never received this
