The Islamic Banking And Finance Workbook: Step-by-Step Exercises To Help You Master The Fundamentals Of Islamic Banking And Finance

Synopsis

The ongoing turbulence in the global financial markets has drawn attention to an alternative system of financial intermediation: Islamic banking and finance. This is now one of the fastest growing sectors within the market place and has, so far, remained on the sidelines of this unrest. Since the inception of Islamic banking thirty years ago the number and reach of Islamic financial institutions worldwide has risen significantly. Institutions offering Islamic financial services constitute a significant and growing share of the financial system in several countries, and market participants everywhere are joining the race to study and be a part of this emerging financial system. The Islamic Banking and Finance Workbook is a one-of-a-kind workbook on the topic, enabling readers to test their understanding of Islamic banking and finance concepts. Although suitable as a standalone learning tool, the book is designed to test the information covered in the companion book, Introduction to Islamic Finance and Banking, and covers the fundamentals of Sharia'a law, the Islamic contracts interpretations and definitions, Murabaha, Mudaraba, Musharaka, Istisna'a, Salam and Ijara modes of finance, Takaful and much more. Emphasis is placed on mini case studies, multiple choice questions and tests of the basic concepts. It also includes a full answer key and brief chapter summaries, as well as learning objectives. The Islamic Banking and Finance Workbook is an essential learning tool for students and practitioners who want to test their knowledge of the rapidly growing world of Islamic banking and finance.

Brian Kettell has a wealth of practical experience in the area of Islamic banking and finance. He worked for several years as an Advisor for the Central Bank of Bahrain where he had numerous Islamic banking responsibilities. Subsequently, Brian taught courses on Islamic banking and finance at a range of financial institutions including the World Bank, National Commercial Bank (Saudi Arabia), Global Investment House (Kuwait), Noor Islamic Bank (UAE), the UK Treasury, the Central Bank of Iran, the Central Bank of Syria, the Chartered Institute for Securities and Investment, the Institute for Financial Services and Scotland Yard. Brian's vast academic expertise in Islamic finance is highlighted by his role as former Joint Editor of the Islamic Finance Qualification Handbook and his past teaching work at a number of top universities worldwide including the London School of Economics, the City University of Hong Kong, the American University of the Middle East in Kuwait and London Metropolitan University Business School. Brian's impressive list of publications include over 100 articles in journals, business magazines and the financial press including Islamic Business and Finance, Islamic Banking and Finance, the Central Banking Journal, Euromoney, the Securities Journal and the International Currency Review. He has also published 6 books on Islamic banking and financial markets.

I recently completed a Post Graduate Program in Islamic Finance and Banking. It was brutal in the amount of extra/outside study I had to do. I purchased Brian Kettell's books on Islamic Finance. Not only were they not helpful but were at such a high level, overview, as to be totally worthless for the study of Islamic Finance. I genuinely feel I was "ripped off" by these overpriced books. And it is ironic that the Dummies Book on Islamic Finance by an Islamic Finance Scholar was FAR superior.

I feel this is an excellent value Really enjoy this shopping experience. Do not think that you necessarily need to buy a very expensive product, this price has the same effect, which is definitely a product worth buying. Perfect condition, a little gem Will buy more eventually!
