Business & Money > Marketing & Sales > Marketing

## **Customer Reviews**

HiThis is a fine book on the basics of SEO. It covers a lot of ground on the various social media outlets which are available for you to market your business. Which is a great thing as the social media options available are confusing to say the least.What the author does well is that they give a quick overview of each and every mainstream social media outlet. On a downside the details on each one is limited. It would be ideal to have extensive detail on each social media outlet, but then again this would make for a huge book.What I really liked about the book is that in the last chapter, the author provides a chart which summaries when to use each strategy and also very usefully he provides a link to a social media audit worksheet which is a really good idea!So certainly this book is a great place to start for anyone who is just getting into SEO.

This book discusses social media as vehicle for promoting your products - be it a physical product or the content of your blog. The information I found most useful was the age groups that tend to use different social media platforms. I have a elder care related blog which is aimed at care takers and their elderly parents and this helped me learn where people that would find this information most useful can be found. If your product is aimed at a particular age group this information helps to prioritize where you should be spending your time. Ali Julia review

Awesome! Branding is one the most important part of a product or a business. This book enables us to understand the trends and techniques to be able to utilize efficiently the use of social media. Getting to know how Facebook, Instagram, twitter and Snap chat is used is a very important thing that this book has rendered to a stranger like me who got to read this book and found out this ideas which make it really useful to me. This requires me rereading this book because it has important points which are necessary for us business persons to understand. A lot of techniques on how to utilize social media are already packed in one here in this book. Really worth recommending!

Can you imagine your life today without social media? I really can't at all because we are all dependent on social media for it connects us with the rest of the world that we either can't visit or know about. This book showcases research-backed facts that illustrate how social media has changed both the way we live and work. I recommend anyone aspiring to be a digital marketer, current businesspersons and any other individual to read this book.

This is a very helpful book to read for those who wants to be a successful online entrepreneur. In here, you will be guided on how you can use the social media sites for your marketing. This contains efficient strategies which can aid you to gain more followers and have your brand known. The things you'll learn from this guide will definitely enable you to improve your marketing strategies. Hence, I absolutely recommend this book.

Understanding and utilizing social media is more important than ever before. People are building personal brands, businesses, and identities through these platforms and you can too. This book does a great job of highlighting easy to understand strategies that you can begin to utilize immediately to help you see results eventually.

Social media has been such a crucial part to our business. We have acquired a lot of business through social media channels and it's definitely one of the most effective tools we've used to date. But some people take for granted the benefits of Facebook or Twitter and how important they are to our businesses. So i think this book is big help for us. This will serve as a good guide for us!

This book will guide you in all social media platform. All tips are really great and effective. Social media marketing is not a short thing to describe but the author try to put all the necessary information here and make them quite easy to understand. If you a just beginner then no worry about it. Just get this book I hope you will get some valuable tips and strategy here.
