Customer Reviews

Unlike a lot of other pattern books, in which I like maybe two or three out of all, this book is loaded with beautiful, usable images. I use the patterns for paper mosaics and the two I've made so far are quite lovely. I've pulled out eight so far that I love and am getting a lot of value for the money!

This book would be a good coloring book.

Awesome!

When I ordered the coloring book filled with stained glass patterns, I thought it would be a great collection to my stained glass workshop where I have literally hundreds of patterns of stained glass angels. I was looking for something to build a stained glass panel from and these so called patterns

don't follow the basic concepts about the way glass naturally breaks. I realize it's a coloring book, but I did expect it to be a bit more realistic. It's not even that I can't modify the designs, but I was so disappointed because I'd wanted something special to build in honor of family members who have passed away.

Thank you for your fast service I relay do like this book Thank You So Much

I like to paint on glass and love Angels. This box has great patterns. I have used it a lot and the angels are great to paint.

This book gives you 60 stained glass angels and cherubs that can be done in a variety of art forms. The patterns for the most part are very detailed in the wings and flowers within the patterns. These patterns are not for beginners because of the amount of detail.
