Your Start-Up Guide To Investing In Tax Lien Certificates

Synopsis

Here's how to make BIG profits from government tax lien certificates and earn up to 36% interest. In this book, Ted Thomas shows you how to get started investing in tax lien certificates and tax deeds. It's currently one of the safest investment opportunities available... and the best part is that you can get started for as little as \$100. This book is full of the information you need to get started today. Ted has included everything from as basic as "what is a tax lien certificate," to step by step actions on how to find tax auctions near you. Also included are the most commonly asked question Ted gets from beginning tax lien certificate investors and 5 case studies of how some of his students applied his techniques and profited. If you're looking to earn a side income, save for retirement, or just start building your "nest egg" then this is the book for you.

Customer Reviews

This is mostly an advertising for the authors other products and courses and offers only a small bit

of information and a few good stories. This book is best if sifted through to find the few tiny nuggets of information. If you truly plan to invest in tax-lien certificates, it would be wise to spend a few more dollars to buy a higher quality book.

Quick view at tax certificate investing. Really a sales book for a education class/system. It does help give you insight into tax Lien investing though

Best book on the subject I have read so far.

I found this book informative. It gave the basic information you need to get started, but was a little wordy at times. I could have done without the constant sales pitches for webinars, seminars, and home study. It did peak my interest in investing in tax lien certificates and I am going to do more reading on this topic.

Meh, same information everyone else is offering up. But then we get to read a sales pitch too.

Lots of good info. Will help in investment opportunities

He pretty much did what everyone else did bait me into thinking he was going to tell step by step instructions but he wanted to get me to invest in his products. I'm very disappointed.

Excellent product.
