Together, Michelle Tam and Henry Fong are the critically acclaimed co-creators of Nom Nom Paleo, the Saveur Award winning food blog and Webby Award winning cooking app. Their first cookbook, Nom Nom Paleo: Food for Humans, became a New York Times bestseller, and was nominated for a James Beard Foundation Award. Michelle is the working mom and food nerd behind Nom Nom Paleo's recipes and personality. Her obsessions include dark chocolate, trashy reality television shows, and miniature toy food from Japan. Michelle has a degree in nutrition and food science from the University of California at Berkeley, and earned her doctorate in pharmacy from the University of California at San Francisco. For over a dozen years, she worked the graveyard shift at Stanford Hospital and Clinics as a night pharmacist. Henry is a lawyer by day, but moonlights as the photographer, illustrator, and designer of the Nom Nom Paleo cookbooks, app, and blog. He also strokes his beard a lot. Henry is a graduate of the University of California at Berkeley and Yale

Law School. Michelle, Henry, and their sons Owen and Oliver currently split their time between Palo Alto, California and Portland, Oregon.

I love what's there! Beautiful, full glossy recipes and generous calendar space. However, and I felt bad pointing this out, at first, because I love, love, LOVE Nom Nom Paleo, but the product description fails to mention that September, October, November, and December are small grids on one page together-- so, they do not have individual pages, which means 1) not useful because no writing space, and 2) no recipes for any of them. Otherwise, I do love everything about this calendar, and I'm sad I can't use it in full swing or buy others as gifts that would be useful until the new year. I have the new cookbook, so I will still be totally ok, since that is so awesome! And I think this calendar is still totally worth buying. Just be aware there's not quite as many recipes or useable calendar pages as you'd expect.

Not enough superlatives to describe how much I love this book. I have already made 5 recipes and all of them were fabulous. Not only are the recipes great but it is a beautiful book. This book and the first book are a must have

Fun to look through! The pictures and easy to read pages motivate me to try all the recipes!

Everything looks yummy, can't wait to try some of the recipes inside.

I love anything from Nom Nom Paleo. :)

I love it. Its quirky, and I will try the recipes. The stickers are cute.

My spouse and I work crazy hours and it can be hard to not grab a box of mac n cheese or top ramen for dinner sometimes - even though we always feel horrible after eating. Having this colorful and inspirational calendar on the fridge will help us stay on track! It's like Michelle is always there watching to remind us how easy - with just a little prep - healthy eating can be. A lot of the recipes I have seen her make on Facebook Live, and they don't have too many steps - so I know I can make them too! The photography and graphics are great. Look forward to cooking the monthly recipes for guests, and myself! It's worth getting just for the epic sticker sheet also :)

I must confess, I have a serious cook book addiction. I would be afraid to count them all. Let me tell you this, Ready or Not is the most gorgeous cookbook I've ever seen. There are gorgeous photos of every single step. Every step I tell you! It's amazing ! So well laid out. It has everything you could possibly want in a cook book. It's a big beautiful hard cover book. As I first sat with it I was amazed at all the recipes. The first one I wanted to try was the Sunday Gravy on pg 152. I went out and gathered my ingredients. I opened the book and followed along step by step with all the fabulous photos. The recipe turned out absolutely fantastic! It's beyond delicious. Over zucchini zoodles to boot. I have so many recipes I want to try. I would give this big beautiful cookbook 10 stars if I could. Thinking ahead this will make a great Christmas gift. Order now!
