Customer Reviews

It comes as 2 CDs. One is just music... or what the producer claims is music. Worst junk I have ever heard, and certainly not something I wanted. The other CD supposedly has the book. I say supposedly because it is largely composed of minutes of the same horrid music before the reader jumps in. And "jump in" it is -- not even a statement of what you are listening too, or where one "part" ends and the next begins. And the whole book portion is only about an hour -- even including the horrid music. This is abbreviated beyond belief. Oh yeah, it stunk too. Literally. Open the CD case and a terrible smell comes out. I can't identify the smell, but it sure made me close the case fast! This was true for both books I got in this set -- both were equally bad and smelled equally horrid. I would never buy anything from this producer again. ever. period.
