Customer Reviews

"C. D. C. Reeve adds to his already remarkable series of translations of Plato and Aristotle another stellar accomplishment: a full translation of Aristotle's daunting *Metaphysics*. He has managed to present Aristotle's often ungainly Greek into perfectly flowing English syntax without sacrificing the core meaning of the text. Any translator of Aristotle will recognize what an impressive achievement this is. All readers will benefit from the over 1,600 explicative notes accompanying the translation: Reeve has a discerning eye for determining what requires amplification for the purposes of understanding and an admirable gift for saying just as much as needs to be said in order to achieve it." —Christopher Shields, George N. Shuster Professor of Philosophy, University of Notre Dame

C. D. C. Reeve is Delta Kappa Epsilon Distinguished Professor of Philosophy at the University of North Carolina Chapel Hill. His recent books include *Action, Contemplation, and Happiness: An Essay on Aristotle* (2012), *Blindness and Reorientation: Problems in Plato's Republic* (2012), and *Aristotle on Practical Wisdom: Nicomachean Ethics Book VI* (2013). He has translated Plato's *Cratylus* (1997), *Euthyphro*, *Apology*, and *Crito* (2002), *Republic* (2004), and *Meno* (2006), as well as Aristotle's *Politics* (1998) and *Nicomachean Ethics* (2015).

This is a beautiful book which pairs lucid translation with meaty commentary. In the introduction, Reeve helpfully addresses the types of questions contemporary readers might pose (i.e. "Is the Investigation in the *Metaphysics* a Scientific One?"), helping to ensure that concepts aren't "lost in translation." Notes throughout the text open windows into difficult passages. Reeve also often provides the valences of meaning with the original Greek. The decades Reeve has spent with Plato and Aristotle form a total benefit to the reader: here he presents Aristotle's most difficult work in a manner both accessible and erudite. Buy this book!
