Customer Reviews

I found this helpful for getting started with a ketogenic diet, mainly for the health benefits and recipes within. It provides a good overview of what a keto-diet actually is and how it helps the body, as well as what foods are considered "ketogenic". And good guide on how to get started with one of the 3-types of keto-based diets, safely and effectively. A guide of what to eat and not to eat is helpful as well as the actual pros/cons of this type of dietary adjustment. A few meal suggestions are provided with good details on ingredients, cooking instructions and meal variety.

I honestly learned new information from reading this book. It teaches me the three types of ketogenic diet that I never heard of before from other ketogenic book; they are standard ketogenic diet, cyclical ketogenic diet and targeted ketogenic diet. This book helped me understand better the purpose of these types of ketogenic. Overall, it's a good book to recommend for anyone.

This book has 20 Recipes to get beauty and good health. I already cooked few of them and it was really good. I just love it. This book also will help you to weight loss and it has also few feature like low carbs, step by step guide to follow, fat loss, fat burning, and more. This book is especially for beginner like me.

In this book I read about proven steps on how to lose weight by burning more fat. All the basics of the Ketogenic diet are covered as well as a diet plan and some very nice recipes. If you want more energy and want to burn fat, you will find this book a good help achieving your goal

The book is easy to read and understand. This is an advance ketogenic information that can't be found anywhere else. I learnt a lot from this. Not only about a ketogenic diet, but also nutrition and understanding. The author has a remarkable knowledge about ketogenic recipes and the nuts and bolts of it.

Ketogenic Diet For Beginners is the best book in it's class, and I've read quite a few of them. Ss0me very unique and tasty recipes...

I studied and read up on nutritional ketosis so I felt fairly prepared. I'm about 1 week in and I'm very excited for the future results!! And I'm glad that i have this wonderful cookbook!

Easy to understand and follow. I would appreciate it if there were more information about Ketogenic diet itself.
