Healthcare Finance: An Introduction To Accounting And Financial Management

Synopsis

The essential concepts of both accounting and financial management are covered in this best-selling healthcare finance book. Through clear explanations, numerous examples, and realistic practice problems, it arms future managers with the grounding they need to make financially sound decisions for their healthcare organizations. This thoroughly updated edition provides more emphasis on the unique marketplace for healthcare services and additional examples from nonhospital settings, including medical practices, clinics, home health agencies, nursing homes, and managed care organizations. Particular content changes include: Expanded discussion of health insurance, reimbursement methodologies, and the impact of healthcare reform on provider behavior A new presentation of managerial accounting material that follows a more logical progression of concepts, emphasizing the level of analysis (organization, department, service) rather than techniques Coverage of three service-line costing methods: cost-to-charge ratio, relative value unit, and activity-based costing. Plus, an introduction to time-driven activity-based costing, a method for costing at the patient level. Updated financial accounting formats that conform to the latest American Institute of Certified Public Accountants guidance Increased coverage of the revenue cycle

Customer Reviews

Louis C. Gapenski, PhD, is a professor of health services administration with a specialization in corporate and healthcare finance at the University of Florida. He is the author of 30 textbooks, which are used worldwide and include Canadian and international editions as well as translations in eight

languages. He has published 40 journal articles related to corporate and healthcare finance and is active in several professional associations. Kristin L. Reiter, PhD, is an Associate Professor in the Department of Health Policy and Management, Gillings School of Global Public Health, and a research fellow in the Cecil G. Sheps Center for Health Services Research, at the University of North Carolina at Chapel Hill. Prior to receiving a doctorate in health services organization and policy with a concentration in corporate finance, she worked in public accounting serving non-profits and clients in the insurance industry.

This book is a life savor!! Arrived the day class started. Could not ask for better.

I have no prior experience in Finance. This book has provided me a smooth sail through the course. Its very helpful for beginners. Every topic is well explained.

Great product. Still in the new protective seal and was delivered on time.

Solid made; worth the price considering I need it for 2 Graduate courses.

Met my expectations and helped me in my class

Not for me but great for my class! Lol

Met expectations

This book was horrible to read because the font is very blurry. I want my money back ASAP!!
