perfect for my grand daughter who loves dragons and she will be using these with her crayola air brush sprayer.they have come out really neat and she has been able to blend the colors which makes the dragons look really cool.

Great for beginning artists! Make sure to use the glossy sides up so they can be wiped down and used again.

These six cardboard stencils will work well for my purpose, but beware if ordering with other products as 's packaging allows these small stencil books to be damaged.

Bought every one of these little books that were available. They are small, about 1/4 the size of a standard sheet of paper. The inside is medium weight card stock and each page has one stencil. There are maybe 8 to 10 pages of stencils based on the book's theme in each book. Wouldn't use for a painting project, but I'm planning to turn them into fabric applique designs, and they will be perfect for that use.

My triplet grandsons are now into stencils, and love any stencil they can get ahold of.

bought for other no complaints
