DK Workbooks: Geography, Pre-K

Synopsis

Perfect for preschoolers, this workbook contains exercises that focus on the most basic concepts of geography, including humans and the natural world, Earth and the solar system, globes, types of maps, directions, landforms, and bodies of water. Level by level, the write-in DK Workbooks: Geography series offers at-home practice that kids actually enjoy, making them ideal supplements to schoolwork. Designed to support curriculum standards, this series is developed with leading educational experts to build confidence and understanding. For children ages 3–9, each leveled workbook is packed with activities and challenges, offering the beneficial repetition and cumulative learning that lead to mastery. Fact boxes on each page give a simple overview of the topics being covered, review the basics, and often offer an example of the task at hand. The exercises themselves reinforce key geography topics, including: map reading, compass directions, continents, countries and states, borders, bodies of water, and more.

Age Range: 3 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

Love the DK workbooks, I am a teacher and currently home schooling a 2nd grader, I use the DK workbooks often, they always cover more in any topic on one worksheet than any other workbook I've purchased.

Absolutely love this activity book! It is illustrated well and uses age appropriate language. My

daughter loves doing her activity book. We typically do a few pages and then I quiz her on what we have learned. I would definitely recommend. My daughter has been in a day care with an advanced curriculum and beginning kindergarten this fall but the book is very informative and she has learned a lot of new things.

My daughter loves this book. It is fantastic at introducing geography concepts and topics that are basic but I wouldn't think to teach otherwise. The lessons are simple, right on target for the age group, and often give practical application so you can use the idea in a tactile way. My daughter was 3 when we started (4 now) and I've recommended this workbook to many friends.

Three stars for supplement ideas in the back, but mostly these "lessons" could be much better learned outside of a workbook. The section organization is weird and illustrations are occasionally confusing.

These DK Workbooks are simply excellent. They have a full page of gold stickers to help keep our son motivated for each lesson. They have large lettering that is easy to read, and appropriate for a 2nd grade level. My son likes to do these on his own and at his own pace with the easy-to-follow directions for each lesson. We have purchased every DK Workbook for 1st and 2nd grade now. Highly recommended to bridge the school break over the summer. Buy them for your child, you won't regret it, and they will thank you later! These books also meet the common core state standards.

47 pages and answer keys.

The reward system, is a star sticker for EVERY SINGLE PAGE THAT HAS BEEN FINISHED! Cheapens the "reward system" IMHO. Great content though, just not enough repetition/practicing of each concept.

This workbook is a little too hard for my daughter to follow without my assistance...but thank goodness there is an answer key in the back of the book!
