Learn Korean With Big Bang: Big Bang Songs To Learn Korean (Learn Korean With K-Pop Book 2)

Synopsis

K-pop for language learning? Is this a gimmick? Yes, it could be. But it isn't, if properly done. Songs are engaging, endlessly repeatable, clearly pronounced, vernacular, and singable of course. This book is made to make songs useful for learning the Korean language. Translations are explained and made accessible. The songs are selected for learning usefulness and organized by grammar. Big Bang, favorites like Monster, Loser, Haru Haru, Cafe, etc. Songs are introduced with grammar points. Translations are in spirit with the Korean but made with language learning in mind. All levels of language learners can benefit from this book.

Customer Reviews

Great book. There are few pages for Korean alphabet and basic grammars. After that, there is a bunch of songs like "Eyes Nose Lips", "Haru Haru", "Fantastic Baby", "If You", ..., with some more useful grammars and new vocabularies in each song. This book is amazing for Big Bang's fans. It has lyrics in both Korean and English. Explanations for every new grammar found in each song. Useful, friendly to Korean learners that already have a little background on writing and reading

in Korean, the size is not too big, easy to carry anywhere. Recommend this book, especially for VIPs.

Thanks.
