Customer Reviews

"I was thrilled to read the text! I believe art is best appreciated by students if it is thematic because that is how the students have been exposed to art so far in their lives. I love the thematic approach. I think non-western arts and cultures are well represented throughout the textbook. Women and gender issue are addressed directly and clearly, in culturally appropriate manner." -- Aditi Samarth, Richland College

"The most difficult aspect of Art Appreciation is placement of concepts into history. What I love about this book is the format of grouping art into subjects: 'food, shelter, etc.,' which immediately makes the topics more digestible and less intimidating." -- Lynn Peters, Moraine Valley Community College

Margaret Lazzari is an art critic and writer whose books include *Art and Design Fundamentals* and *The Practical Handbook for the Emerging Artist*. An active artist, Margaret's drawings and paintings have been exhibited extensively throughout the United States. Dona Schlesier taught for 27 years at Divine Word College in Epworth, Iowa, where she is now Professor Emerita. Her drawings and multimedia have been exhibited nationally and internationally.

Did it come in on time? Yes, but towards the later side. How was the quality? Almost brand new,

even if I bought a Used - Good book. Did it come with an access code? No, but what was I expecting for \$8? Overall, I'd rate this product three stars, because the listing advertised an access code. (Should have sold this under textbook only.) But the product came in good (great, even) quality, just in time for some early review before class starts.

Enjoyed the text that will be kept. A super resource with detailed explanations and graphics of various art types. While not an art major but one who does enjoy art in its various forms, found the text to be well worth the investment. Expect to refer to it in the future when questions arise.

Great

Bought specifically because it advertised an access card. I understand there's a chance they might not come with it, if so DON'T advertise it. Code costs more than the book itself, almost twice as much.

Well

I purchased this book because it was required for my college course of art appreciation. It was an online course and I was able to pass this class by having this book. It was also way cheaper than my college bookstore and other online sites.

A must read for art educators! A different approach to art: art as a cultural phenomenon, ways of living--inhabitation, worship, decoration of human tools, etc.

I ordered a brand new edition of this product that was suppose to come with the code, and I received a used edition with no code. I was unsatisfied with the results.
