# The Age Of Collage Vol. 2: Contemporary Collage In Modern Art

## Synopsis

Collage is as topical as ever. The Age of Collage Vol. 2 is a striking collection of work that ranges from subversive to museum-worthy. While some examples make explicit statements, others are gloriously Dada. Bringing disparate images and items together, collage transcends the boundaries between artistic disciplines. The traditionally analog technique has its roots in surrealism and Dada. Having effortlessly evolved to embrace digital tools and the combinatory freedom that they offer, collage is now making a promising comeback. The Age of Collage Vol.2 presents the work of more than 80 collage artists – from established names including John Baldessari and Richard Prince to up-and-coming talents such as Lola Dupré. A follow-up to The Age of Collage, the book is a comprehensive showcase of the surprising diversity of this genre today.

## Book Information

Hardcover: 320 pages

Publisher: Gestalten (February 25, 2016)

Mixed Media #1484 in Books > Arts & Photography > Graphic Design > Techniques

## Customer Reviews

Really, super awesome work in here. Most of it is from the last decade, but it's a good mixture of physical collage work and digital mixed media.

Beautiful book but there are a number of repeated images from the first volume.

Great book with a lot of inspiring work.
