Writing For Psychology

Synopsis

WRITING FOR PSYCHOLOGY, Fourth Edition offers concise assistance for students writing their research analyses using APA style. By providing concrete examples of common errors, the authors show rather than merely tell students what to do and what to avoid. This manual will help students adhere to the basics of APA style; refine critical thinking skills, library search skills, revising skills, editing skills, and proofing skills; and avoid plagiarism. Checklists precede a summary at the end of every chapter, giving students the chance to make sure they have been thorough in their reports.

After graduating summa cum laude from Washington and Lee University, Mark L. Mitchell received his M.A. and Ph.D. degrees in psychology at The Ohio State University. He has co-authored (with Janina Jolley and Robert O'Shea) WRITING FOR PSYCHOLOGY: A GUIDE FOR STUDENTS. His professional affiliations include the American Psychological Association, Society for the Teaching of Psychology, American Psychological Society, Council of Teachers of Undergraduate Psychology, Phi Kappa Phi, and Phi Beta Kappa. He is currently a Professor at Clarion University, a loyal Buckeye fan, and the proud father of Moriah Mae Mitchell. Janina M. Jolley graduated with "Great Distinction" from California State University at Dominguez Hills and earned her M.A. and Ph.D. in Psychology from The Ohio State University. She is currently an executive editor of "The Journal of Genetic Psychology" and "Genetic Psychology Monographs" and Professor of Psychology at Clarion University. Her professional affiliations include the Middle-Eastern Honor Association

(President 1999 to 2000; Vice-President 1998 to 1999), American Psychological Association (Division 2: Teaching of Psychology and Division 20: Adult Development and Aging), American Psychological Society, Council of Teachers of Undergraduate Psychology, The Midwestern Psychological Association, and Phi Kappa Phi. Her hobbies include flying, Civil Air Patrol, biking, and spending time with her family. Professor Robert O'Shea is the professor of psychology at Southern Cross University. Prior to this he taught at the University of Otago, Dalhousie University, Northwestern University, Queen's University (Canada) and the University of Queensland, having received his PhD from the University of Queensland in 1983. He has published extensively in major psychology and neuroscience journals. His research is on visual perception, especially binocular vision, perception in the real world, depth perception, peripheral vision, and movement perception. He has taken study leaves at Dartmouth College, Harvard University, and the University of Rochester. Professor O'Shea has been an associate editor of Perception & Psychophysics, a member of the Association for Research in Vision and Ophthalmology, and the coordinator of the 2004 Australasian Experimental Psychology Conference.

This book is filled with everything from how to organize your paper. The various aspect of writing specifically for psychology includes examples on such things as abstract, intro, conclusion, and body as well as references are in a clear understandable way with example. Also is helpful in teaching one how to do online research in virtual libraries which I found really helpful as a returning student in a master's program in psychology. By the time I am done with my program I will have used everything covered in this book. Wonderful and up-to-date as of 2014. In compliance with 6th edition of the APA Publication manual.

This book provides the reader with a basic understanding of the research project. This includes a clear process for creating a literature review as well as where to continue research. It offers many useful samples and charts while adhering to the necessary requirements of the APA (American Psychological Association). Very helpful for students in the social sciences, including graduate students.

Unfortunately, I didn't need it but it was on time if I did. Great job.

This book was an investment for writing skills. It is very good to use as a resource while writing papers.

Good companion to the APA manual. Well laid out and helpful sections for easy look-up of information.

Needed it for class and it came in perfect condition

Came clean and untouched

Excellent source for information on the subject matter.
