Customer Reviews

I enjoy this series, but I have to admit that I buy them mostly to fill the time and because they're \$3. I would say this is a "nice" series that features a lot of cats, a mystery, familiar and comfortable characters and no real surprises. Sometimes it bothers me what the series is missing: character depth. The cats have the most character. The humans have as much interest as watching an old

sit-com: everything you see is surface feelings and actions that come across as programmed according to their character type. It shows about as much human interaction and drama as a 50's sitcom as well: very light arguments, love interests, etc. I'm surprised anyone could work up the effort to kill anyone in these books. As a person who loves cats, I also am mildly annoyed at how the main character is shaping up to be a perfect stereotype of an eccentric cat lady (with money). Her cats run amok through her daily life and she and her friends laugh indulgently. In her world it's perfectly reasonable to invite people over and then let your cats steal or destroy their property. It's actually to be expected. The main character has other spots of irresponsibility regarding her pets which never seems to bother her since she's now rich. I guess it's a sign that a character is believable if you want to lecture her on her behaviour? Anyway, if you've followed this series you'll find this one interesting as, along with cat antics, you get some developments in the town and the reoccurring characters lives.

I got her first 8 books and I am reading through them quickly. They are entertaining, gives me mystery and keeps me reading to see what happens next. I would recommend to people who want a light-hearted book with some suspense and explaining how different it is to live in a small community away from the big cities. Relationships without details of any sexual behavior.

I absolutely love Siamese cats. I too have a seal point, my exquisite Desiree. While she doesn't solve murders by surfing the web she can turn on my tablet and find her games to play. She also senses if I feel bad and won't leave my side till I feel better. This one has a really good story line and I definitely recommend it.

This book needed an editor really badly. The narrative was jumpy and the author telegraphed who-dun-it from the very beginning. Meh. :(

The story is good, the cats, in all their mischievous antics, are adorable but I still have a hard time warming up to the lead character, Katherine. For some reason she just doesn't come across as warm or personable. I have read all 29 or 30 of Lillian Jackson Braun's "The Cat Who...." books and they are all the definition of "cozy mysteries"! I had high hopes for this series and I will see what "The Cats That Watched the Woods" has in store for Katherine, Jake and all the smart cats. Hopefully, that will be the one to make me think, "Boy, I'm sure glad I stuck with this series!"

A bit disappointing. Having it in double spacing (which is usually only for editing purposes) meant it was not really all that long a read and didn't have any depth and was all over before I felt I was into it.

I really like this writer. Love the small town aspect. And of course, I am a cat lover. This book is a great read. Being picky, there was one thing I disliked. One fact about the murder was not discussed as the book went on. Why put it in, if you aren't going to explain it. Maybe it will be addressed in the next one? There was a twist at the end concerning the main characters and I think the "fact" was lost in the shuffle. Otherwise, it's a great read, great story and likable characters. I can't wait until the next one. Hope it comes soon.

A simple read with a bit of a mystery. Easy and quick to read. The story was convoluted but kind of fun. While I love cats, I was disgusted with cats being on food and on the table, etc. I don't plan to read anymore in the series.
