How To Create Mehndi Designs (Dover Fun And Games For Children)

Synopsis

People around the world have practiced the art of mehndi or henna tattoos for centuries. The intricate designs are often worn in conjunction with religious rituals to cultivate good luck and blessings. They're also a popular form of self-expression, offering a beautiful and temporary form of body art. These illustrated step-by-step instructions feature easy-to-follow exercises showing how to combine dots, swirls, ripples, and other patterns into original versions of the traditional patterns. Guidelines include suggestions for combining the simple shapes that form the basic elements of mehndi, a selection of motifs, practice pages with unfinished patterns, many helpful tips, and plenty of samples for coloring.

Jessica Mazurkiewicz's graphic illustrations can be seen in books and magazines, as well as on clothing and dinnerware. She is the author of several Dover titles, including How to Draw Mandalas.

Very good for beginners. This book is very basic; thus, it is for someone who is just starting or want to get an idea of the art. If you are looking for advanced or intermediate ideas then this is not the book for you.

One of the best beginner design books I have seen on the subject. The only thing that could improve the depth of the book designs would be including the different types (Arabic, Indian, Moroccan, etc) so beginners learn which style they prefer and the supporting elements to create the look.

Good book for beginners. I just wish it had more completed designs to look at.

Exactly what I was looking for. NOT a coloring book, this book is designed to teach you the art of Mehndi. It gives you ample space to practice designs and learn how they should fit together. Henna is made beautiful only through practice and this is just what this book gives! Thanks so much, I looked long and hard to find a book like this and not one that was only full of pictures. Great buy.

Step by step designs for temporary henna tattoos. Easy to follow. It was perfect for a birthday party for teens.

This book breaks down how to approach decorating hands and feet using henna paint, but I love it for the inspiration it gives me for creating my own surface pattern designs. Large, clear pictures throughout.

This is a great step by step book to make henna art quite easy. YES!

Just not what I thought it would be. It's instructions not designs to color
