Customer Reviews

It's so light weight and conspicuous in terms of a fitness journal. I love how many different things you can list. Keeps me on track WAY more than using an App on my phone.

After much searching this journal is exactly what I wanted. It starts with a goals page, then each week has a week in review page. Each charting page has weight, breakfast, snack, lunch, snack, dinner and snack section. Also 8 cups of water to check off. Has a little section for exercise, type, circuits and #of reps. Good buy for the price

Purchased this for food log prior to surgery. It has enough room to write out other daily activities. Examples how many glasses of water drank, activities of exercise, space for me to keep up with glucose / blood sugar readings, ped steps. Really awesome. Love it.

Easy to use and small enough to place in a purse.

I just started eating healthy and writing in this cute little book keeps me accountable. I love it!

I was hoping for more room to journal my private thoughts. This is good to keep track of what your eating.
