Customer Reviews

Not what I expected but a decent read. Too much supernatural stuff in it for me. Some good action

in it but a little too much BS in between it all.

I don't know, it seems Luke has come to the crossroads of his life. He's wondering if all those dead spirits will ever stop following him. He thinks he needs to cleanse his soul before these apparitions will leave him alone. This isn't what I thought it would be as a western adventure of sci-fi thriller it isn't.

DW has written a western about a gunman who has grown tired of being a gunman. He leaves a lady in Texas, finds one in Oklahoma and is rescued by an Apache Maiden after being shot and left for dead. He is a talented gunman who happens to play the violin and both sides of his personality are convoluted. This is an excellent read for the genre.... ER

Great yarn stumbling with the wind traveling way the wind blows is all right having crossed this country 100 times or better liked the book try it you'll like it
