Customer Reviews

this series is great! the character development is amazing, i feel the characters emotions, which to me makes a book...If you are reading this then you prob know the style in which these books are written...from every main characters point of view throughout the book seperated by chapters. so its easy to follow, though every so often i have to flip back to remind myself whos pov im on, i really like

getting each characters perspective...the story is full of action, deceit, love, and small yet happy triumphs and easy to get into, im only sad there are only 5 books. i only have two left! i highly rec this book and the two before!

I am in love with this book sms the story of Raul and Eleria. Seems she has a Destiny that he may not be able to be a part of. It has kept me wanting more. Such a great series I have read them in 3 weeks and cannot wait for the next.

I've read three books in four days in this series. I love it and am hooked. Each book is well written. I would highly recommend audible, it makes it even better. You learn so much in this book in the series. I would love to tell you what is inside. Again that is for you to find out. I would highly recommend this book and series. Off to the next book. Hope you make it there, although if you have come this far there is no turning back. You are hooked.

This is a very good series to read...it keeps you on the edge of your seat waiting for the next shoe to drop..when it happens you are like that isn't what I expected....you figure out everyone has their own agenda and that no one can be trusted...at the same time you can't wait to see what will happen in the love story that is taking place...I personally can't wait to read the rest of this serie...I know that you will enjoy this series as much as I have..it is a very fast read...

This was so good I'm going to start the fourth book in less than two weeks. It's the first time I've read a book where you could get the idea of what each character is thinking. At first I wasn't sure if I liked that because I'd be so into one character and then it would change but it happened in a sequence that relates well to the timeline of the story. Without wanting to give any spoilers I'm glad that this third book gave more details on Elira's parents thoughts. Vampire novels are my favorite read. Of course they're all fiction but I like how magic is involved in the story. It gives it an understanding of where it began. Now to see on how it will end!!Rodriguez

Way Too short !!!!! Other than that , I do really like the story ...but the 3rd book was so shortI felt a Lil bit cheated .

This is a brilliant series. With every book it gets better and better. Great characters, great storyline, great magic and mayhem. I highly recommend

Please add AUDIBLE TO NEXT BOOK ONLY READABLE WITH audible PLEASE
