The Dinosaur Alphabet Book (Jerry Pallotta's Alphabet Books)

Synopsis

The perfect way to introduce children to the fascinating world of dinosaurs. Full of interesting facts--did you know some dinosaurs had sharp front teeth while others had no front teeth at all? This alphabet book explores both the known and the not-so-well known dinosaurs. Meet the heterodontosaurus (one of the smallest known to exist), the megalosaurus (the first dinosaur ever discovered), the iguanodon, the ultrasaurus, and more! Once again, Jerry Pallotta and Ralph Masiello have combined their talents to create a unique children's book that will inform and entertain young readers.

Customer Reviews

Jerry Pallotta is an award-winning author of children's alphabet books and imaginative fiction. His books combine interesting facts, detailed research, humor, and realistic illustrations that mesmerize children everywhere.

I love Jerry Pallotta's books (we have two others and have gotten others from the library), so when my son started liking dinosaurs, I knew we had to have this. Fortunately we watch Dinosaur Train, so we know a bit about dinosaurs, but for someone that doesn't know about dinosaurs, this book

would be really difficult to read. The pictures are great and the dinosaurs/text is really cool - my biggest suggestion is that there should be a guide on how to pronounce the names since dinosaurs names are really difficult! I try my best, but I'm sure my 2 1/2 year old can probably say them as well or better than me :-)

PROS- Inexpensive- Colorful- Well written
CONS- Does not have the T-Rex, a kid's favorite-
Drawing could be better
Other: I bought it to my 3-year old son, he's about to turn 4 and, a huge dinosaur fan. He did not LOVE this product and I can see why (see Cons).

I have read these books since I was young and now I get to share them with my children. My 4 year old is obsessed with Dinosaurs and I had to add this to her collection. The art is fabulous. The reading is interactive and informative. Great series!

Cute book but what a HUGE let down that there was no TREX in this book.

A great beginning reader book for boys and girls who love dinosaurs. The pictures give an incentive to read.

I got this for my 5 year old son, the pictures are beautiful. There are interesting facts about dinosaurs through out the book. Also each letter has a dinosaur that you learn information about. It is a great book.

My son loves this book!

My 4-year-old really enjoys this book!
