Customer Reviews

"The latest in the batch of "Moon Handbooks releases proves again that Moon is one of the finest travel series around. What sets Moon apart from most guidebooks is the attention to detail, and more importantly, a respect for the topic."

This is the first Moon guide we are using, and definitely not the last. We went on an 11-day vacation in Minnesota, and this book turned out to be an irreplaceable companion. Not only did it point out the usual got-to-see places, but also gave many little tips about unique places and things to see and experience (such as the Mohair goat farm or the "Rhythm of The Rails" show), which made the best moments of our trip. We also loved its sense of humor, which made it also fun to read (as opposed to your typical laconic-written travel guides). Highly recommended.

I wondered when Moon would get around to covering Minnesota. Like all Moon guides I've used, this is as close to complete coverage of Minnesota as you could hope for from a guidebook. It's got all the obvious stuff but a lot of off the beaten path places too.

i will enjoy the different things a pesron can do in the state from the big city life to rural country life.
outdoor recreations to night life
