Customer Reviews

Ketogenic diet gives me the perfect diet and calories of daily requirements. I am grateful because this book doesn't just lists, recipes but it goes on and even gives tips to beginners on how to go along successfully with Ketogenic diet. I really appreciate this one. After reading the whole content, I learned so many delicious recipes which boost up the energy level and built stamina that is good for one's health. This book is my favorite so far. It's informative. I love this!

Ketogenic diet always bangs my ears every day until such time I get curious about it and read this book. I have found out in this book the benefits that ketogenic diet could give those who do this method. Dieting is very laborious for me however this book made me feel a lot easier on my diet. This is a book that suits my way of dieting.

I read this book in one sitting. It read easy and was very informative. Now I know where my keto diet went wrong. Starting over this weekend.

A quick, to the point, informative book that gives you a breakdown on what a Keto diet consists of with tips to be successful and an explanation to back it up. It wouldn't be the only thing I read, but it's a good starting off point to see if this is something you really want to commit to.

I keep falling with my nose in the diet books. Again, I'm not looking to lose weight but have experienced a personal story of transformation when it comes to bodyfat. Ketogenic was something new to me and the title 'mistakes' was grabbing and enticing for me. Loved the recepies and will

give the book to my friend, she can use some weightloss. Thanks for the promo!
