Business Law With UCC Applications Student Edition

Synopsis

The thirteenth edition of Business Law with UCC Applications updates many key areas of the law. As in previous editions, a great deal of care has been taken to present business law concepts in the most coherent and accessible way and to provide up-to-date coverage of business law topics that are essential to today's students. All of the chapters for this edition have been updated, and we have continued to enhance our coverage of the important topics of cyber-commerce, international law, identity theft, trade secrets, abandoned property, eminent domain, mortgages, bankruptcy, limited liability companies (LLC), ethics, the Dodd-Frank Act, the new health care act, revised Uniform Partnership Act, the Genetic Information Nondisclosure, the War Powers Act, changes in state law regarding collective bargaining, the proposed changes in patent law, proposed changes in the court system, the War Powers Act, and Alternative Dispute Resolution. Material is presented in nine sections, which include relevant case studies featuring excerpts from the court's opinion. Content has been updated to reflect the many recent changes in the legal field and color photos throughout the text help students relate the material to their own lives.

Customer Reviews

Rented this for relatively cheap instead of buying the entire book. Good information inside the book. My teacher tells us to read certain sections and do homework on said sections. Most information is understandable, maybe it's just a hint to better my vocabulary.

Product was as described. Worked out great and much cheaper than buying a new book. The wallet

(and wife) appreciated that aspect very much, ha. Fast shipping as well. I would recommend this method of book buying to anyone.

everything was just perfect especially they were including the connect code attached to the book which should be obvious and normal since when Mc Graw sell the book, it would be accompanied by the connect code but some companies sell that code apart because its pretty expensive and needed most of the time.

I recommend looking at 's list for renting textbooks over B&N any day of the week, not only is the schedule for returns compatible to the school year but the low cost more than makes up for the pen marks and doodles in the margins. After being left waiting over a month without fulfilling my order by the competition, got my books to me right away with no complications!

This was a good book. I had to have it for a college class. It was in decent shape. It was bought used so I wasn't expecting perfection. It worked out great.

I was under the expectation that the book was new. New meaning in the shrink wrap or at least includes the access code for the online material. When the book came, it did not include the code.

Not a boring read. The subject material is relevant as of two years ago. The book was delivered with minor wear and tear (including highlighted areas), though I wouldn't blame for that.

I rented this for my business law class it was the required text it was easy too understand and helped me pass my test. I rented the book to save cost I do not see myself reading it in a causal non class sitting but as far as text books go it was good.
