Malaysia And Singapore (EYEWITNESS TRAVEL GUIDE)

Synopsis

Malaysia beckons with an astounding mix of lush rainforests, gorgeous beaches and precipitous mountains, and this latest volume in the award-winning Eyewitness Travel Guide series covers every aspect of this fascinating country. Nature lovers can swim with colorful fish off the shores of numerous islands or spot orangutans and other exotic jungle-dwellers in Sarawak. Using the unique cutaway maps and 3-D models explore the ultra-modern skyscrapers of Kuala Lumpur and Singapore which overwhelm the colonial buildings still found in the center of both metropolises.

Plenty of original information. My favourite, and good for first-timers The Sunday Times Travel Magazine --This text refers to an out of print or unavailable edition of this title.

This is a decent guide but I would definately purchase another guide to supplement it. I went on a trip to Kuala Lumpur(I just returned last night) and I took this guide as well as the Lonely Planet Kuala Lumpur guide and they were great together. I did use my LP guide a lot more, but this one does include a lot of good information about all the different sights.

This is a great book- full of interesting information, gorgeous photos, and travel tips. We just went to Singapore and it was useful, along with the [Groovy MAP 'N' GUIDE SINGAPORE](#) and [Fodor's Singapore's 25 Best, 3rd Edition \(25 Best\)](#). The only downside is the size. While small enough to carry in a bag, it's not THAT small- and the section on Singapore is

relatively small compared to the Malaysia section. Overall, while I'm happy I bought it, the other 2 books went with me around town, while this one stayed in the hotel.

DK is one of my favorite travel guides. The many photos truly help me assess the appeal of a location/site. I just wish there was more effort to help develop an itinerary. EG how many days to spend in each location. However other guides do that and since there is no Kindle edition of the DK Guides, I'll be purchasing those to take with me.

Just as it has done for me on trips to Europe and the British Isles DK has come through for me again with this series about South East Asia. The maps make it easy to navigate and don't require me to buy maps of major tourist sites as they are already included and it helps to get you excited and know what you want to see when you get there with its beautiful displays. They got it right as they always seem to do.

I always like DK eyewitness tour guide books.

If you are looking for where to stay, where to eat, what is cool, get a Lonely Planet guide. This is a typical DK Eyewitness guide - packed with detailed historical and cultural information, superb illustrations, an easy-to-follow map. The information is well-written and is presented in an easy-to-read-and-grasp manner. I usually get both the Lonely Planet (or similar) and DK.

I used this guide for a 2 day trip to Singapore. The guide was helpful as an overview to Singapore. We used it to find an authentic Malay restaurant on Boat Quay, which was really excellent, and seemed to have a lot of locals, even though it was in a tourist area. There is actually a lot of interesting things to do in Singapore and the guide helped us find them.
