The Coldest Fear: A Thriller (Shades Of Death)

Synopsis

A killer with nothing left to lose—Afraid or not, Detective Bobbie Gentry has a monster to confront. The pain of losing her family and nearly her life to a criminal's vile hunger is still fresh, but now the landscape is different. Now she's not alone. Now she has Nick Shade to trust. Nick treats the terror of his past with vengeance. He's dedicated his life to hunting serial killers, and he'd give his last breath to save Bobbie. When a string of killings bloodies Savannah's elite society and causes cold cases to resurface, Bobbie is captured in a city more haunted than Nick's inescapable nightmares. And as the murderer strikes close, Nick and Bobbie will need to become even closer if they're going to survive.

Customer Reviews

a great continuation of Nick and Bobbie. I couldn't put the book down. It was suspense from page one. I was surprised at the end it wasn't what I was expecting. If you want another great read I suggest you read this book.

There should be 10 stars for this series I was unable to put this book down Do yourself a favor and get the entire series. From the moment I began reading Bobbie & Nick's story I was hooked Best series I've read in a very long time Well done!!!:-)

Absolutely riveting all the way through!!!

Thirty-Two years ago, on the same night, 5 young children mysteriously disappeared. They were never seen again. There were no ransom notes, no clues, nothing they just disappeared into thin air, leaving 5 families to grieve for the rest of their lives. Today that all changes. The local veterinarian and his wife are found murdered in their home...each of them submerged in hardened cement. The plastic headstones on some of the graves in the pet cemetery have been broken. Inside each one is a pile of very small bones. But there are only 4 of them. Where is child # 5? Detective Bobbie Gentry is summoned to Savannah to help work this very cold case. A serial killer ... Nick Slade's father ... is still on the loose ... still making it a priority to kill Bobbie in order to make his son angry enough to kill. Nick still has nightmares about becoming like his father. Over the next few days, parents of the lost children begin to die .. in a horrible, gruesome manner. And no one is talking secrets are buzzing around like flies at a picnic. What happened 32 years ago? Why were these children taken? What connects them to each other? And why is the secret of where they went just now becoming public knowledge? And why is the on-the-run serial killer hanging around now? Bobbie and Nick are going to have to go back to the beginning and start putting all the puzzle pieces together. But their time is running short and the serial killer maybe moving up his timeline. This is the 3rd book in the series ..and it's a doozie. I strongly recommend and suggest you read this series from the very beginning. Bobbie's and Nick's stories start in Book 1 and it's something you don't want to miss. THE COLDEST FEAR does okay as a stand alone. though. I have come to expect so much from Debra Webb's books ... suspense and mystery ... strong characters evil killers and a little romance here and there. This one does not disappoint. I'm really looking forward to the next oneTHE LONGEST SILENCE. I wish to thank Debra Webb / Harlequin (US & Canada) / Netgalley for the advanced digital copy. Opinions expressed here are unbiased and entirely my own.

Where do I start? For me...this author gets better and better with every book. I am blown away that I could love this series more than her Faces of Evil series but hot damn...THIS SERIES is AMAZEBALLS! With every book in the A Shades of Death series you are drawn into the world of

Detective Bobbi Gentry's world and what a dark place to be. Bobbi is damaged, some might say beyond repair, so to speak. But her grit, her determination and sheer vision for doing what is needed has me on the edge of my seat for every book. Debra Webb has a way...what a fabulous way of creating characters that you can't turn away from. Whether they are heroes or the most vile killers. You want to see what makes them tick. And you want to see the good guy win. Bobbi is kick ass and when she teams up with the man in the shadows (that's what I call him) they are unbeatable. Even if he is slow to catch on...lol. I love that they are both damaged, fragile in some ways and the strongest in others. The progression of the friendship that develops is tough at times to watch because of both of their pasts. Nick is a true hero, perhaps...a hunter of evil. And because of his past and his family he feels that this is the only way for him to live. He will soon realize that there are things he can't control, including his heart. Also what makes Debra Webb an Epic storyteller is her plots, you never see what's coming. The twists and turns, the subtle undertones. Brilliant. Also her secondary surrounding characters are also key in the process, and when you put it all together. Boooyah! You have a story you can't put down! If you are a fan of murder, mystery, epic plot twists and characters that you will love OR hate long after you close the book. Then YOU MUST read this amazing storyteller!

This is the first book I've read by Debra Webb. From looking at her website, I'm definitely late to the party. What I didn't realize when I requested this book is that it is the third in a series. It was very well-written and the intricate plot kept me guessing but it starts IMMEDIATELY after the book before it (like the next day). Webb creates an amazing cast of characters with a tangled mass of intimate connections that made the beginning of the book confusing for me. I'm sure if I had read the first two in the series I would have known exactly who everyone was and been more entertained by the subtle references. It's clear the author is working hard to not overload a new reader and still give enough information but I felt like I'd turned on a TV show in the middle. Remember when they used to snippets of what happened before each scene? "Previous on Miami Vice..." That's what it was like. Yes, I was an 80's kid and I was OBSESSED with Miami Vice, Wise Guy, Crime Story, all those! Once it really gets going, the plot itself is chilling. The story is told through multiple characters who all have something to hide and something to lose. The way everything came together in the end made sense (which I always appreciate) and, of course, left some dangling threads for the next book. I would recommend this book to the fans of the Shades of Death series. And to my reading friends who like their suspense on the dark side. I will admit to skipping the graphic detailed descriptions of the murders. They were a little too vivid for me but I am a big, fat chicken! *I received a free copy of
