I read these types of books often enough to see if there is anything new to learn. I really liked his perspective. Not cutesy, not generalized, actual useful information. Although it started out strong, it kind of wimped out toward the end in summarizing and I didn't care for the overuse of the word pivot. But I bought and gave a copy to my son as it's definitely worth reading, and I think a person just starting out would gain a lot of benefit from the ideas presented.

In one word: Wow. This book is transformational, insightful and full of practical steps to pivot your way to a grateful mindset, a positive perspective and a fulfilling life! Highly and wholeheartedly recommend this book to one and all!

Great book. Very thought provoking. If you are looking for a break through, it is a book to consider.
