# Many Minds, One Heart: SNCC's Dream For A New America

## Synopsis

How did the Student Nonviolent Coordinating Committee break open the caste system in the American South between 1960 and 1965? In this innovative study, Wesley Hogan explores what SNCC accomplished and, more important, how it fostered significant social change in such a short time. She offers new insights into the internal dynamics of SNCC as well as the workings of the larger civil rights and Black Power movement of which it was a part. As Hogan chronicles, the members of SNCC created some of the civil rights movement's boldest experiments in freedom, including the sit-ins of 1960, the rejuvenated Freedom Rides of 1961, and grassroots democracy projects in Georgia and Mississippi. She highlights several key players--including Charles Sherrod, Bob Moses, and Fannie Lou Hamer--as innovators of grassroots activism and democratic practice. Breaking new ground, Hogan shows how SNCC laid the foundation for the emergence of the New Left and created new definitions of political leadership during the civil rights and Vietnam eras. She traces the ways other social movements--such as Black Power, women's liberation, and the antiwar movement--adapted practices developed within SNCC to apply to their particular causes. *Many Minds, One Heart* ultimately reframes the movement and asks us to look anew at where America stands on justice and equality today.

great book !!!

The Student Nonviolent Coordinating Committee (SNCC) meant many things to many people and remains so today. Wesley Hogan brings SNCC to us in all its strengths and weaknesses for better and for worse. She reveals a driven group of individuals who reached out to local people in the Black Belt South, listening to what they wanted and linking up with the local leaders who were there and who had fought the fight of the oppressed, down-trodden, and poverty-stricken. The study reveals how SNCC staffers went into rural Mississippi, Southwest Georgia, and Alabama and reached out to the local people whether they were literate or not, helping them voice their problems and overcome them by joining together no matter what the danger to them or the SNCC workers who came and stayed among the people and fought the fight with them. While doing this SNCC staffers listened to local elders as well as the young people and heard their stories and paid attention to their recommendations in discovering new leaders and training them to do what needed to be done in creating local movements. Hogan does not shy away from SNCC's difficulties in the Deep South in fighting its violent and brutal enemy and in the process reveals to the nation through

its fight that white America needed to be pushed into helping the African Americans of the South by losing some of its best and its brightest in that battle. The course chosen by SNCC is revealed as one of a democratic group operating by consensus decisions rather than leadership from the top like other civil rights organizations. This choice is discussed and documented and examined for where this led and how it finally left the Black Belt South without the SNCC presence that drove the movement there from 1960 to 1966. Hogan documents this study with interviews, archival materials, bibliographic citations, and insightful use of extensive resources.

I first met Wesley Hogan when she interviewed me about my experiences in the movement against the Vietnam War, and I was--and remain struck by her incredible, unmatched ability to sense the whole of what one is saying. This depth and amazing comprehension is present in the richness of Hogan's account of the SNCC participants'/organizers' experiences, here gathered from her extensive, brilliant interviews and enormous reading in the history of SNCC and the Civil Rights Movement as a whole. This is a must-read book for anyone interested in SNCC, the Civil Rights Movement of the 1960s, how people organize for justice, self-determination and change.
