Are you willing to know your future? Do you think that an ancient technique like Numerology can really help you not only to predict but also change your future? Do you want to learn some basic concepts of Numerology for predicting your future? If these questions were reflecting in your mind before landing to this page, then you are at the right place. Our Mother Nature has spared us with many boons and Numerology is one of the boons that humanity has been using since the earlier Stone Age. Numerology is a subject in itself and many scholars learn it as one. But if you want to know what is going to happen in your future and how you should change it, then all you need is to learn some basic concepts of Numerology to achieve what you want in your life. Numerology is not a new concept but people have been learning it dated back to 10,000 years. Numbers have a great importance in our life and if we understand how to use these numbers for our benefits then we can achieve the zenith of our success and prosperity. Our date of birth is a very crucial number and my book should provide you thorough information of your date of birth and its impact in your life. Now, there are some very new concepts that have introduced in Numerology to make it more interesting. There are some basic concepts like Life Path, Personal Year, and Critical Year that can help you to predict your future precisely and make some necessary changes to become successful and prosperous in your life. In my book I have given a thorough prediction of Life Paths 1-9 that should help you a lot to understand what your life path is and how you can use it for your benefit. I have also explained about the Personal Year cycle for a person and how it affects the life of a person and how he can take some necessary steps to save him from any conundrums and mishaps. Finally, I have explained about the critical year and its impact in your life. These concepts are basics of Numerology and you can easily predict your future from these and learn how to use these concepts for your benefit and successful life. My book is not for learning Numerology but it should provide you some basic information that you can use for your benefit and life predictions. Customer Reviews

Most people associate numbers only for classroom studies like math or for monetary consideration in life. But this book will change all that because this contains explanation on how numbers can affect and even influence and explain things that normally can't be explained by numbers. This book contains ways on how to understand yourself, events, practices, attitudes by the use and analysis using the numerology principle. This contains explanation on the numerological meaning of your name and birth-date and how it affects your personality, as well as the other people.

In Numerology, all we do is to learn how these three core elements work and how they can help you to make positive changes in your life. Your main motivation behind learning basics of Numerology would be to have an overview what is the real meaning of individual numbers. Whenever we make a personal numerology chart, we work with the numbers or vibrations related to a person. Numbers or vibrations act differently according to what chart elements they are related with and what vibrations challenge or support them.

This is only an introduction to the topic. There is no great information shared, just an incomplete description of what numerology is and how long it has been used by ancient peoples to try to understand and control the world around them. Since it worked so well for them (not!) the author feels we should try it too.

Reads more like a high school paper than a book. Very disappointing. Do not waste your time or money on this book.

Great product, fast shipping.Thanks

great
