The Labor Progress Handbook: Early Interventions To Prevent And Treat Dystocia

Synopsis

Praise for the previous edition: "This edition is timely, useful, well organized, and should be in the bags of all doulas, nurses, midwives, physicians, and students involved in childbirth." —Journal of Midwifery and Women's Health

The Labor Progress Handbook: Early Interventions to Prevent and Treat Dystocia is an unparalleled resource on simple, non-invasive interventions to prevent or treat difficult or prolonged labor. Thoroughly updated and highly illustrated, the book shows how to tailor one's care to the suspected etiology of the problem, using the least complex interventions first, followed by more complex interventions if necessary. This new edition now includes a new chapter on reducing dystocia in labors with epidurals, new material on the microbiome, as well as information on new counselling approaches specially designed for midwives to assist those who have had traumatic childbirths. Fully referenced and full of practical instructions throughout, The Labor Progress Handbook continues to be an indispensable guide for novices and experts alike who will benefit from its concise and accessible content.

Penny Simkin, Senior Faculty at Simkin Center for Allied Birth, Vocations at Bastyr University, Independent Practice of Childbirth Education and Labor Support, USA. Lisa Hanson, Professor and Director, Midwifery Program, College of Nursing, Marquette University, USA. Ruth Ancheta, DONA-Approved Doula Trainer, Independent Practice of Childbirth Education and Labor Support, USA.

Definitely a must-have for midwives and midwifery students. Full of great tips for helping women with slow progressing labors. Includes evidence based guidelines, holistic and alternative treatments with extensive references.

The book is great but arrived looking used with the cover completely scratched up. I am highly disappointed. I take pride in my well-kept books but I guess this one won't have a chance. Now to figure out how can fix this issue. I don't want to go through the hassle of returning this for a new copy. It was an expensive book. I love receiving new books but for once i am left unhappy.
