Customer Reviews

I am very satisfied with my Fire HD 8. With the added sd card I am able to download whatever I want and either listen or watch whatever whenever I want from wherever I am at the time. Alexa just adds to all the above.

I expected to get more of a manual of features and trouble shooting and received basically two chapters. One compared HD 8 to other tablets and chapter two was about Alexa. Very disappointed.

Helped me making the decision to purchase the Fire HD 8. Very informative with good tips.

Great overview of my new device! Looking forward to using what I learned! I also liked how you wrote it as if talking to me instead of at me.

The text that should have accompanied the how to operate chapter was missing so all you were left with were the pictures. The pictures were not worth a 1000 words. There were other errors related to colors of the new HD and the sVersion 6.

It is hard to image why danyone would knowing spend \$2.99 for such s short OFFER. I think I will just stick to the GUIDES on this kind of offer.

Horrible---Absolutely zero help. Waste of money.

Not a lot of info. Glad I did not purchase it. Do not waste your money or time on this book.
