This little book is a perfect story time read for our family! I am able to read it in English and my husband enjoys reading it in Spanish to my pregnant belly. My husband says the translation is good and accurate (something VERY important, yet quite difficult to examine when buying a book online), and the story is sweet and rhythmic.

I love reading this to my daughter

Baby loves it

My family has owned the english version for about 3-4yrs and my son took great liking to it in his toddler years and at age 5 he still enjoys me being silly with him in acting out the book. It's a wonderful gift and the bilingual version gives it an even bigger perk for anyone trying to teach their child english or spanish as a second language. Enjoy some special time with your child using this book!

We used this book as a guestbook for a baby shower. It was so fun to see comments in Spanish and English! We can't wait to read to baby.

Honestly I think I like it more than my son, but he loves books so he doesn't mind when I ask to read it. That's right, I ask to read it. It's sweet story going over how much you love your kid from his head to toes, inside and outside, etc. How wouldn't a parent love to talk about how much she/he loves their child?! I love that it's also in Spanish which is what I usually read to my son in. The illustrations are sweet, it's a board book so handles a lot of drool and snot well and is the right length for an infant or toddler.

Book is soft/cushioned in the front and perfect for little hands to hand over to their parent to read :) I bought two as baby shower gifts for friends who are also bilingual. Very sweet book.

I love this easy to read book. The illustrations and cute words are so fun to read. My sons loved to point out their nose and mouth along with the book. It was also a great way to teach emotion. It is also my go to book for a gift.
