Customer Reviews

Shipped on time and very informative book.

I bought all three handbooks by Abigail R. Gehring: The Back to Basics Handbook; The Homesteading Handbook; and The Ultimate Self-Sufficiency Handbook. I thought they would

complement each other. But they contain a lot of the same information. I keep them in my prepping library. I ended up giving this book, The Ultimate Self- Sufficiency Handbook to my sister-in-law as a birthday gift and she loves it. I kept the other two because they had what I mostly wanted. I do like all three books because they are lots of pictures and diagrams which make them really easy and enjoyable to read. The canning information in all three books is really my favorite part!!

I liked this book. I consider myself knowledgeable in most of the areas that were covered. I have 50 years experience in canning, baking bread and 60 years in vegetable gardening. I also have raised most of the farm animals. So to find a book that teaches me something new is fun and a real delight. For example: under the canning section I liked the needed information which is contained in boxes entitled QUANTITY. This book has the amount needed for a full canner of either quarts or pints. How original. This would be a great book for a beginner and I enjoyed it as well.

lot of projects for sustainable gardening

I so want to be able to never go to the grocery store again. One step at a time! Never stop learning!

Nice book to find basic info on getting started in Self-Sufficient living.

Good book. Lots of useful information for anyone wanting to be more self-sufficient.

The information is old with no new ideas. The author did not present information in any new style or with new ideas.
