Insurrection (Athena Lee Chronicles Book 5)

Synopsis

Athena Lee and her planet are still reeling from the revolution that swept their part of the galaxy. The Space station has new management and Athena's ship has left without her on board. The Empire ship Paney is still on patrol and is being threatened by the Bad Penny Pirate clan. Mutiny, piracy and general mayhem seem to follow her as she discovers that a secret plot threatens the known galaxy.

Customer Reviews

Rebels, patriots or mutineers it all depends on your perspective. A secret organization behind the most corrupt members of the government. What is their agenda and how powerful are they? Series is still short books, almost more novellas and lots of typos. But it is getting better.. Although you could read this as stand alone you will understand more if you read series in order. The author could combine all first 6 books into one real book, correct his typos and maybe tighten up some of the plot for a much better read. But until he does these are OK to pass the time

As much fun as this series is, it's literally getting harder and harder to read. Some paragraphs have so many punctuation and spelling issues it takes multiple reads to understand what the author was trying to say. Please, author, engage a copyeditor post-haste, and your readers will be legion.

The characters pull you into the story. The storyline is fast paced and keeps you turning the pages. I was so hooked on the story, I read all of the books in 3 days. I am waiting for the next one to be published!

I am working my way through all ten book which I have purchased. Looking forward to future book. Yes, I have noticed some spelling mistakes but still fun to read. Great point about being like a serial! Also a Ell Donsii fan!

I just spent the entire night reading all five books ,can't wait for the next. I just couldn't put them down wanted to know that came next. The characters are great, Wilson is so eighties lol awesome. Yeah there are some typos oh nobody is perfect and they didn't take anything away from the story.

I like the storyline in this series. Good wet afternoon stuff for space opera fans. However, Paul's persistent view of the apostrophe as an optional extra detracts, as do his many and regularly repeated typos.

These books are riddled with spelling errors and basically short stories for the price of a novel. Story is good though so am struggling with whether to continue following the story.

Love the play on words!! Wasn't sure where this one was going in the beginning but boy did it finally get there!! Another great read!! Heading for number 6!!
