Mars And Venus In The Bedroom

Synopsis

In his #1 New York Times bestseller *Men Are from Mars, Women Are from Venus*, John Gray helped men and women develop better communication skills by recognizing that they have different emotional needs. Now he takes them to communications final frontier--the bedroom. *Mars and Venus in the Bedroom* provides both men and women with specific instructions on how their new relationship skills can be used to improve their sex lives. Written with the understanding and unique insight that can come only from John Gray, it shows couples how they can become sexually satisfied without frustrating their partners, be better lovers, keep their monogamous relationship passionate, communicate their sexual needs romantically and get more pleasure out of sex. Yes, men are still from Mars and women are from Venus, and vive la difference. With John Gray's guidance, these two celestial bodies can harness their differences to come into closer orbit with each other and enjoy some close encounters of the most heavenly kind.

Gray follows up his bestseller *Men Are from Mars, Women Are from Venus* with this sex manual for the 1990s. Using the same "advanced" techniques presented in his earlier book, now transferred to the bedroom, he advises partners how to achieve sexual satisfaction without frustrating each other, how to rekindle and maintain sexual passion without resorting to affairs, how to talk about sexual needs without turning each other off and much more. For those in a rush to the bedroom, virtually every paragraph is recapitulated in boldface one-liners. Although some of the material is old news (women require more foreplay and affection than men), much is cutting-edge. For example, women

don't always desire orgasm, and therefore "quickies" can be enjoyable for both parties. But sorely lacking here is a discussion of safe sex in the age of AIDS and other sexually transmitted diseases. And despite the title, Gray here compares men to the sun and women to the moon rather than to Earth's planetary neighbors. \$250,000 ad/promo; 500,000 first printing. The author of the blockbuster *Men Are From Mars, Women Are from Venus*, Gray here attempts to explain how couples can have great sex and keep romance alive in a long-term, monogamous relationship. There is not much left to the imagination as Gray explains exactly what men and women should say and not say, what they should do, touch, lick, and more. As in his earlier books, Gray's metaphors lack grace, and his writing is far from polished. If you can see past his silly language, however, much of his advice is quite good. Although the explicitness of his sexual descriptions may bother some, and his poor writing skills may bother others, Gray's book is a reasonable and useful title. And given his huge popularity, public libraries should have this on their shelves when he starts appearing on the talk shows. [With 2.6 million hardcovers of Gray's *Men Are from Mars...* in print, HarperCollins will release a Spanish-language edition of that book under their HarperLibros line this month.-Ed.]-Elizabeth Caulfield Felt, Washington State Univ., Pullman.--Elizabeth Caulfield Felt, Washington State Univ., PullmanCopyright 1995 Reed Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

The book has been very insightful for how my husband perceives some things, and how I feel about intimacy things. I would recommend it, and have, to family. As well as his book on relationships.

Great book - I offer it to my clients in my couple's therapy practice. I also gave it as a shower gift to a couple getting married. It's a great resource.

very practical in giving us Venus the martians view of the bedroom. i made sure my husband wasn't offended in me buying the book. just wanted to spice or improve our love life after 13 yrs of marriage. Unlike most marriages, my husband works the midnight shifts, so getting together can be a challenge.

Every married couple needs to read this book. I clearly get why I feel the way I do and the way my wife feels-great for understanding each other's needs.

A must read to optimize relationships between the sexes.

hahaha... I loved Dr John Gray's "Men are from Mars and Women are from Venus!!" and I enjoyed "Bedroom" as much as well... :)

Great product!
